We received overall good responses from our teachers. More than 95% teachers are satisfied with the syllabus and teaching-learning environment of the college. But some teachers suggested improvement on some grounds as syllabus revision, value added course, extension activities, internships for students etc. Some suggestions by the teachers are:

College should start more add on courses on recent technologies
college should start personality development courses for growth of students.

Infrastructure and parking facility should be done.

Encouraging more internship programme for students

Some more applied courses should be introduced

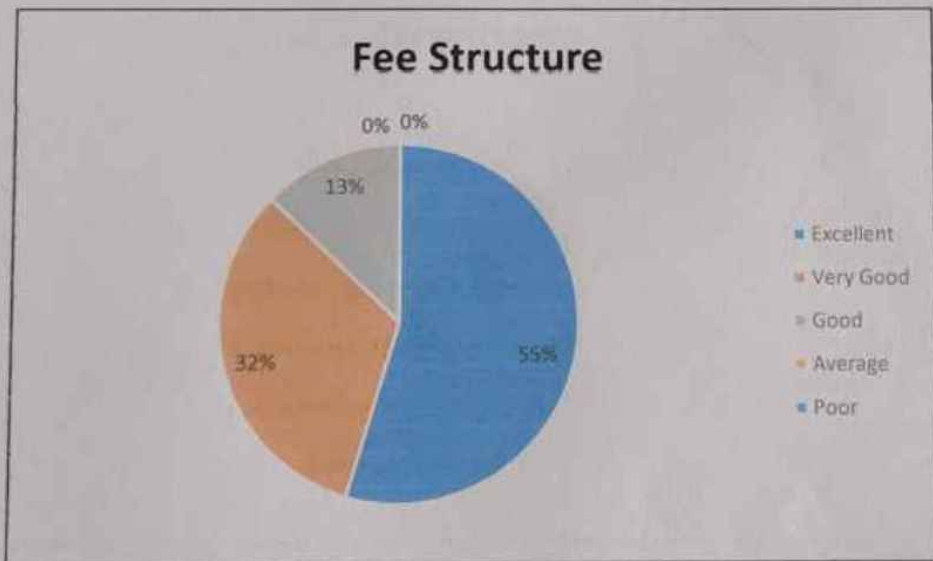

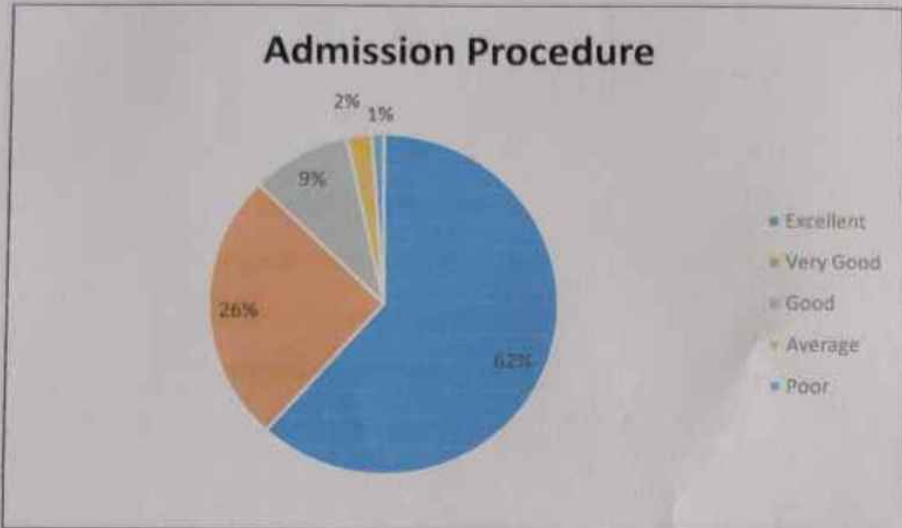

There is a scope for increase in no. of smart class rooms.

In the current scenario, we need to develop a common digital platform for students, staff, and administration like a college management system.
